## MGT-341

Texas A&M Engineering Extension Service

National Emergency Response and Rescue Training Center

**Thurs & Fri.  
August 25 & 26, 2016**

# DISASTER PREPAREDNESS FOR HOSPITALS AND HEALTHCARE ORGANIZATIONS WITHIN THE COMMUNITY INFRASTRUCTURE

## MGT-341

Protecting the critical infrastructure of the United States is essential to the Nation's security, public health and safety, economic vitality, and way of life. Hospitals and healthcare organizations are part of the critical infrastructure as identified in the National Infrastructure Protection Plan (NIPP). This course brings together those individuals from the hospital and healthcare community who are responsible for ensuring the resiliency of healthcare services during a high-consequence or catastrophic event within a jurisdiction. Focusing on preparedness processes and activities, this course provides hospital and healthcare personnel an opportunity to acquire the knowledge, skills and abilities necessary to help them ensure the sustainability of their facilities and organizations during all types of disasters.

### Topics:

- What Are We Preparing For?
- Fundamentals of Preparedness
- Preparing the Response
- Preparing the Recovery
- Assessing Your Preparedness
